Why Patriotic Fund is Not

Raised by Taxation

In view of the fact that a new campaign to raise money for the Patriotic Fund will be started very shortly, the central committee for Southern Alberta has just given out the following statement explaining why the Patriotic Fund is raised by voluntary subscription instead of by taxation.

Under the Canadian system of constitutional government the right of direct taxation upon lands and similar sources rests in the hands of the provincial governments and municipalities. The province of Alberta would have the right to raise money for patriotic purposes by imposing a property and poll tax, but no legislation to that end has been passed and could not now be enacted and be made effective in time to provide the fund needed this year to care for the soldiers dependents, and it must also be remembered that under existing conditions the collection of taxes either by the provincial government or the municipalities is so slow that the dependents of soldiers would starve before money from that source would be available, and the cost of collecting the tax would be at least ten times what it costs to collect the voluntary contributions.

The Dominion Government could, of course, provide a patriotic fund by donating some millions of dollars for that purpose, but the government's outlay is already very much more than its income from taxation, and any additional outlay would have to be met by the issuance of bonds. This would mean that the people of Canada instead of providing for the wives and children of our soldiers out of their income, would be providing for them out of borrowed money, which would have to be paid back in years to come, and these same wives and children and such of the soldiers as return would have to pay their share of this debt. It would be poor assistance to families of our noble defenders that had attached to it the condition that years to come they must pay it back with interest in some form of taxation.

Under the Canadian system recruiting is voluntary, and it seems consistent that those who from inability or choice are not in uniform should show their good spirit by a voluntary contribution to the Patriotic Fund. To make the contribution compulsory by taxation would remove from it all the virtue of voluntary donation, and it is believed in these days, when the men at front and their relatives are making such tremendous sacrifices there are few, if any, at home who do not wish to voluntarily make some contribution to the general cause. In order, however, that those who attempt to evade their responsibility and will neither fight at the front nor contribute to the Patriotic Fund at home may be properly labelled, it is the intention this year to publish list of those who are known to be in a position to assist this cause and who refuse to do so.

It may be added that the whole question of taxation vs. voluntary contribution has had the most serious consideration by those who have the welfare of the Fund at heart, and the voluntary system seems the only present solution. By this voluntary system able men and women are giving their services in whole or in part absolutely without charge and the percentage of the contributions which actually reaches the beneficiaries is very much greater than would be possible under any system of taxation where all services rendered would have to be paid for. It is also worth pointing out that it is much easier to start some new form of taxation than to get rid of it, and the opinion of those who have made

a study of this problem is that it is wiser to meet the situation by voluntary contributions than to introduce some additional tax which would remain as a momentary of the war, perhaps for future generations.

U. F. A. Notes

The following were elected as the local board of directors of the Claresholm farmers' elevator for the coming year: O. A. Finstad, R. S. Law, J. O. White, T. C. Larsen, L. T. Torgerson. The representatives to the annual meeting are O. A. Finstad and L. T. Torgerson.

The conservative government of B. C. has adopted the New Zealand system of rural credits. The government has already borrowed \$100,000 at 5.5 per cent. They expect to loan six or seven million during the present year. The Alberta government has discussed rural credits, but so far has done nothing in the matter.

U. F. A. representatives at the rural leadership convention expressed themselves as favouring free hospitals. The movement is meeting with very little opposition, and it is hoped that at the next meeting of legislature that the whole matter will be dealt with so that the province will get this much needed reform.

Lost—the Claresholm U. F. A. Last seen at the old Alberta hotel during the month of April. Will find please report to the secretary.

The hessian fly seems to have done some damage to crops in this vicinity. Any damage to crops should be reported to the Agriculture College and advice sought regarding preventative measures. Farmers elevators are closed for a few days this week in order that stocks may be taken.

Fine Motor Trip

Meers, Gus Benson, Chas. Foss, Albin Swanson, Eric Swanson and J. T. Hanson motored to Waterton Lake Park and spent a most delightful week at Alberta's southern resort, motorboating, fishing and sight seeing.

Mr. Foss, who is an old salt, was appointed honorary captain of the motorboat. Lined and took full charge. He refused to avail himself of the luxurious tepee and cot provided for him, and stayed with his wife. He sat on his cot, and the stars done of heaven as he cumber, dreaming that he was a reincarnation of Eric the Red, riding the northern seas on the dragon's back. Eric Swanson took a shine to some Mormon girls, and spent his time looking and teaching them how to bait a hook. For a youngster Eric is alright, and will hold his own with the ladies.

Mr. Swanson was general utility man, and his wife acted as a guide for one day, after that, the party was demoralized and he lost control. Brother Benson mixed with the elders, was initiated into the brotherhood, drank all the two per cent, intended to drink the lake, so we had to come home.

Recruits Wanted

The 11th Highlanders are still in need of a few recruits to fill the ranks and it is asked that every available man in this district seriously consider his duty to himself and to his country. The call is sounding in every man's ears—there are some who would answer if they could, and there are some who could answer if they would. It is the latter class with whom Captain McIvor, in charge of the recruiting work for that unit, is anxious to get in touch, and he asks all such to write him at the 11th recruiting office at Calgary.

Transportation to Calgary can be arranged. Why not make up your mind now and help in filling another needed unit for overseas service? Those in the ranks are ready and anxious to go. They need your help. Will you come? This battalion it is expected, will be the next to go overseas.

The United Kingdom in 1915 imported meats having a total value of \$81,000,000. Only \$81,000,000 of this came from British possessions.

War Notes

The Russians are still advancing in Galicia.

Gun submarines have been busy of late and many merchant vessels have been destroyed without warning.

The Canadian forces have been transferred from the Ypres salient which they held for over a year to the Somme front where the big offensive of the British and French is in progress.

Two more battalions left Calgary this week for some unknown destination.

Italy, since the capture of Gorizia, have been moving south east and are now within a few miles of Trieste. The Austrian fleet that was anchored in Trieste has put to sea.

The first car of wheat for the season, was shipped from Grout, Man., on Tuesday. It graded 3.00, and yielded 16 bush. per acre.

Garden Party

The garden party held by the ladies of St. John's Church, at the home of J. T. Kingsley, on Wednesday evening, was very enjoyable. Owing to the inclemency of the weather the attendance was not as large as it otherwise would have been. The town band gave valuable assistance with the splendid music rendered. The lawn and garden which are in an ideal condition, were lighted with electric lamps, and small tables laden with provisions were well patronized by the guests. A very pleasant evening was spent, and the ladies were well satisfied with the financial results. Something over \$30 above expenses was realized.

Cramer-Ringrose

The marriage of Mr. Lewis Clarence Cramer to Miss Jennie Jane Ringrose took place at the bride's home on Wednesday, August 16th, 3 p.m. The wedding march was played by Mrs. H. Thomas, the bride's sister. Rev. W. E. MacNiven was the officiating clergyman. The bride was given away by Tommy Ringrose. After the ceremony an excellent lunch was served.

The young couple left on the evening train for some unknown spot where they will spend their honeymoon. None but the members of the family were present at the wedding.

New successes are reported on the western front where the British and French have taken another three miles of German trenches.

War to End in Three Weeks

A Berlin paper, quoting from another German paper, unnamed, suggests a boycott of love.

The women of Germany, it is declared, are utterly weary of war, and taking a lesson from Aristophanes' "Revels of the Women," have sternly urged each other to resolve that until the men lay down their arms there shall be no more kisses, no more of those little feminine tendernesses that make life livable.

The Reichsblatt, in setting forth this dire threat surmises that it may end the war in three weeks or less.

The day will soon come when roses will entwine themselves around our bloody bayonets. It may well be that the war will last only another fortnight, or, at the most, three weeks. Longer than that the end cannot be delayed, because the whole thing depends on the German women.
